EDUCATION

Computer Engineering

University of Malaga / 2019-2020

Key things I've learned:

- Data Structures
- Object Oriented Programming
- Java
- C++

Full-Stack Developer Bootcamp

Henry Tecnologia / 2020-2021

More than 800 hours learning and practicing full-stack development. Key things I've learned:

- How to develop a JavaScript app from the ground up
- Front-Backend development
- Testing
- Working on a team with Scrum methodology

Worked in two big projects:

- An Ecommerce using mainly React, Express and Sequelize.
- A Game App made for mobile with React Native, MongoDB, GraphQL

EXTRACURRICULARS

Teaching assistant at Henry Tecnologia

- Helped students understand the core concepts of Javascript, React, Sequelize among other things
